

Access to the Resource Allocation Selection System (RASS) is now available!

There has been no physical changes to the RASS application, however one significant change is the new RASS web address: <https://acpwap.army.mil/rass>

The preferred way to access RASS is through the Civilian Personnel On-Line (CPOL) website: <http://cpol.army.mil/library/train/rass/>

Not only does the CPOL RASS website provide a direct link to the RASS application, it also provides all users with helpful and useful tools (i.e., "Quick Reference Guides", "How To" ScreenCam movies and the RASS Helpdesk phone number 1-888-253-1836); status information of the RASS application (i.e., upcoming maintenance downtime information); and instructions/guidance on how to fill out manual PCS orders for submission to the ACTEDS G1 RM office.

The system has been unavailable for the better part of two months. If you have difficulty logging back into the system (password problems), please contact the RASS helpdesk at 1-888-253-1836 so they can unlock your account.

Several of you are new ACTEDS MACOM Intern Coordinators. I encourage you to review the "How To" ScreenCam on the CPOL RASS website: <http://cpol.army.mil/library/train/rass/> to obtain familiarity/directions with accessing and utilizing RASS.

Please inform your ACTEDS interns that RASS is now available for use and all ACTEDS funded training/travel/local reimbursement documents (DD1556, DD1610 and SF1164) must be submitted via RASS. PCS orders are still to be done manually and submitted to the ACTEDS G1 RM office for final authorization.
